CAR SHARE: One car share stall is proposed at grade at the northwest corner of the site. This stall has been excluded from the parking count.

A parking study and traffic report will be submitted as part of the Rezoning/Development permit application, with rationale for the proposing parking distrubtion. TDM measures are being considered, including a car share package and unbundled parking package. Enchanced bike facilities are being reviewed to be included in the project, including end of trip facilities, additional commercial bike parking for employees over the bylaw requirement, and bike repair equipment and space. The commercial uses anticipated are estimated at 20% retail and 80% restaurant.
